FORSSA

forssa

Forssa Town FINLAND

watch the location

- Located at the intersection of highways 2 and 10
- More than half of the Finnish people live an hour's drive from Forssa
- Forssa is only an hour's drive away from the Finland's largest cities, Helsinki Metropolitan Area, Tampere, Turku and Pori.

What do we have?

What makes Forssa so unique
in industrial symbiosis?

We have

Knowhow

HAMK | Häme university of applied sciences
Gives education in circular economy and
bioengineering

LUKE | Natural Resources Institute Finland
Researchers and specialists working in Luke
provide new solutions towards the sustainable
development of the Finnish bioeconomy and the
promotion of new biobased businesses.

We have

Diverse businesses

Forssa region is known for its Bright Green approach, in which main focus areas are: self-sufficient environment and energy, well-being, technology and green logistics. The region is known for its diverse businesses. Business strategy leans on innovative, sustainable development based ideas = bright green.

We have

Infrastructure

The region's Envitech area is known for diverse material recycling and waste processing businesses, bio-economy and renewable energy and wide-ranging environmental know-how.

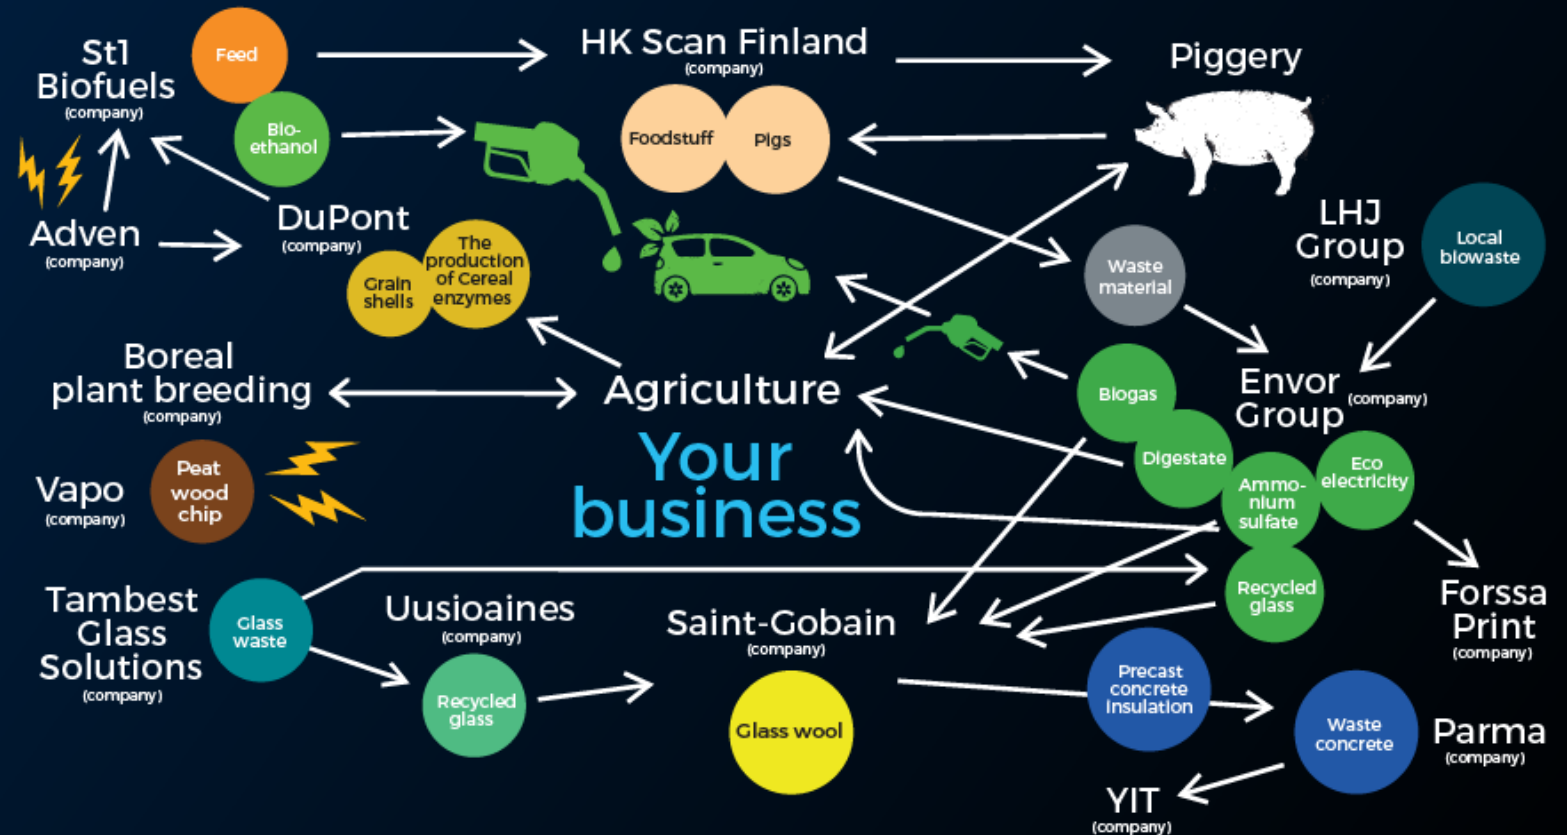

Forssa Town provides possibilities to join the inspirational opportunities and business prospects.

We have

Unique industrial symbiosis

In Forssa region there is one of the most advanced industrial symbioses formed around circular economy in Finland and the whole world.

We have

Circular Economy Event for Startups and Growth Enterprises

FRUSH is a combination of latest talks, dynamic workshops and of course pitching. The purpose of the event is to boost the development of growth and start-up enterprises as well as to create and promote new business opportunities around circular economy. Our Vision is to be the leading national circular economy event not forgetting the international aspect.

Pay it forward @forssa
